My Evaluation

My presentation was about David Bailey and he was one of the most famous English photographers in the world .

Strengths : I spoke really clearly when i done my presentation and i use qoutes and made good use of pictures. I had many videos, the first video was about the way that David Bailey takes his pictures. I did my presentation on google docs because you can save your work and continue your work at home . It was easier made it more convenient . people ask question at the end because they were intrested about my presentation . i was confident when i was doing my presentation .

Weaknesses : I could have remembered all the quotes for presentation . At the time i was nervous and i could have spoken confidently . i could explain more about the diffrent images and how he took them. .I could have got more information about David Bailey .
